Work & Leadership Experience

Innis Residence, University of Toronto

- Chosen as a residence don for the 2016/2017 school year, attributable to leadership skills, trust, and previous experience in team settings
- Have had the opportunity to further develop teamwork skills, interpersonal relationships, and ability to multi-task while remaining organized and efficient
- Also, previously worked as Front Desk Staff and Tour Guide at the residence

Toronto, Ontario

September 2015 –
Present

Innis College Mentorship Program, University of Toronto

- Worked as a Computer Science and Mathematics mentor for students in their first year of the program. Met students on a biweekly basis to help them flourish in the program.
- Guided new students through introductory courses through assignment help, exam preparation, and also gave advice on how to achieve success academically throughout the duration of the year.

Toronto, Ontario

September 2015 –
May 2016

Product Process Specialist, Best Buy Milton

- Provided exceptional customer service on a daily basis, was responsible for product testing & quality analysis, and had the opportunity to meet and interact with a variety of customers and work harmoniously alongside staff members.
- Throughout this experience, an active sense of responsibility was fostered alongside an ability to adapt to any situation and respond appropriately.
